Our integrated HR and Payroll solutions suite, ensures that whether you need HR software with payroll outsourcing, standalone payroll software, or integrated HR and Payroll solutions, we offer the best method for your needs.

And, since we're a partnership with NetCash, we also make sure that our solutions complement the full range of NetCash software, spanning EFT Salary Facility as your Financial Management software.

We aspire to help you meet every challenge with confidence.

We know that payroll is a tricky and sensitive business, which is why Blue Apple Payroll software includes an extensive range of features to make sure employees are paid accurately and on time guaranteed.

About Blue Apple Partner (Payroll & Time Attendance)

Our payroll software solution is designed and supported by payroll professionals, keeping our tools relevant and simple to use, helping you to really improve your payroll management.

We also offer a level of flexibility that can meet the needs of any organisation, no matter how small, large or complex you are. Whether you're a large or small organisation, running weekly or monthly payrolls - or a combination of the two - we can offer a service that matches your needs.

It doesn't matter who you are, or what you need... it's all about your business.
